DETAILED ACTION

Applicant's amendment filed 11/28/08 is acknowledged. Claims 12-17 are pending.

Allowable Subject Matter

Claims 12-17 are allowed.

The following is an examiner's statement of reasons for allowance: the prior art of record either taken singularly or in combination fails to disclose the invention as claimed. In particular, references to Bakay, Karmazin and Torri are the closest prior art but fails to disclose the limitation that each diverting conformation having an edge proximal to a respective aperture and an edge distal to the respective aperture, with each the diverting conformation increasing in width and inclination from the distal edge to the proximal edge in a direction perpendicular to the plane of extension and forming a substantially semi-elliptical contour. Though reference to Torri discloses a semi-elliptical contour conformation but it would not have been obvious to one having ordinary skill in the art to replace the shape of Bakay's diverting conformation with Torri's shape since employment of the semi-elliptical contour of the diverting conformation would not provide the limitation of increasing in width and inclination from the distal edge to the proximal edge of the diverting conformation in a direction perpendicular to the plane of extension.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
